

OceanLitter Programme

 PROJECT	REGLITTER PROJECT
 GEOGRAPHIC FOCUS	India, Indonesia, the Philippines, Sri Lanka, Timor Leste, Thailand and Viet Nam.
 TOTAL BUDGET	KRW 7.5 billion (\$5.5 million USD)
 DONOR	The Republic of Korea
 IMPLEMENTING PARTNERS	The Food and Agriculture Organization of the United Nations (FAO)
 PROJECT DURATION	2023 – 2027
 WEBSITE / CONTACT	oceanlitter.imo.org OceanLitter@imo.org

THE ISSUE

It is estimated that about 20% of total marine plastics comes from sea-based sources such as fisheries, shipping, recreation, oil and gas industry, and others. Plastic litter has devastating effects on our oceans, marine life and human health. Reducing and preventing marine plastic litter is vital to safeguard the sustainability of our oceans.

OUR SOLUTION

- Equip RegLitter countries with knowledge and tools to initiate legal, policy and institutional reforms.
- Engage women in tackling marine plastic litter problems in Asia through a gender transformative approach.
- Facilitate regional partnerships between countries to have a greater impact.

IMPACT

- ✓ Partner countries are leading the change on national, regional, and global levels and enforcing international conventions and regulations on marine plastic litter.
- ✓ Private sector is committed to supporting marine plastic litter related initiatives.
- ✓ Marine plastic litter originating from the shipping and fisheries sectors is reduced.
